THE FINAL PHASE OF CONSTRUCTION IS HERE! NOW IS THE TIME TO ACT!

With the Grand Opening of Phase 4, the final stage of construction at Highland Meadows will soon be underway, and with it some of our most spectacular sites will become available. Twenty new homes, including both single-level homes and estate properties, will be sited on Somerset Place and around Pine Summit Circle. Not only is this the highest point of Highland Meadows, with views across Lincoln and as far as Wachusett Mountain, all homes on Pine Summit Circle face the heart of the circle, a preserved stand of magnificent pines.

Anticipation has been steadily building as prospective home buyers have been eagerly awaiting the grand opening of this unique centerpiece of our community. The day has finally arrived, and we encourage interested parties to act soon. The resounding success of Highland Meadows to date – 31 homes have been sold – suggests that our remaining residential opportunities will be equally popular.

Even if you're unable to attend our Grand Opening Celebration on May 15th, we do hope you'll plan to visit Highland Meadows in the near future. See these magnificent new sites for yourself and imagine watching the sunset from your own home here at Highland Meadows.

A HOMEOWNERS VIEWPOINT

"We needed wide doorways. We wanted our own style. We got both at Highland Meadows."

"Not many new homes offer the universal design features we need, but Highland Meadows went way beyond a stair lift and a shower with grab bars," says Jennifer Lipson. She and her physician husband, Stephen, worked closely with the Highland Meadows design team, figuring out how to move walls and widen doorways without sacrificing the traditional look and feel of a beautiful home. "Highland Meadows gave us a home that reflects our personal taste as well as meets our needs. And it's in a community we really enjoy."

**SUNDAY, MAY 15th, 2011
12 TO 4 PM**

ACCOLADES FOR THE MERRIAM TOWNHOMES

Why are our Merriam Townhomes so special? Some say it's because they're so well designed. Others ascribe their popularity to the nearly limitless customization opportunities. We think it's both.

Not many townhomes are distinguished by such thoughtful floor plans, elegant detailing, or superior construction. Nor can many boast standard features like fireplaces, mudrooms, two-car garages, and decks off both the dining room and the spacious master bedroom.

The Merriam Townhomes also feature a truly outstanding ability to customize your home. From walkout lower levels offering an additional 1,000 SF of space to the incredible array of options available in our Design Center, from open stairways to elevators, we're ready to help you create the home of your dreams.

Several Merriam Townhomes are available now, and four more are scheduled for construction. They range from 2,150 to 3,100 SF, with prices beginning at \$1,250,000. One of them might be just right for you!

Our Design Center is INCREDIBLE! Our in-house design team can help you customize your home.

At Highland Meadows Weston, it's *how* we do things that makes the difference. Our fabulous, one-of-a-kind design center is bursting with choices in kitchens and baths, plumbing and lighting fixtures, appliances and flooring, plus custom interior trim, mouldings and cabinetry options. Our in-house design team will help you make your home a true reflection of your personal style. At Highland Meadows, we invite you to join us in a design experience like no other.
